

Kub Kar Specifications

- 1) Only Official Scouts Canada Kub Kar Kits can be used for the basis of each kar. Wheels, Axles (nails) and wood block must be used for general kar.
- 2) Width of kar (including wheels) is not to exceed 7.0cm (2.75")
- 3) Length of kar is not to exceed 17.8cm (7")
- 4) Width and length restrictions include appliques and stickers
- 5) Width between wheels not to exceed 4.5cm (1.8")
- 6) Minimum clearance between bottom of kar and surface is 0.95cm (3/8 inch)
- 7) Wheels diameter and width must not be altered
- 8) Overall Kar weight is not to exceed 142 grams
- 9) Extra wheels may be added if you wish
- 10) Wheel bearings, bushings and washers are not permitted
- 11) You may sand/grind of any burrs on the axles and wheels to prevent them from slowing down the wheels
- 12) No loose lubrication can be on the outside of wheels/axles as this can make a mess of the track.
- 13) You assigned race number will be written on the bottom of your car at registration and will NOT count against you in judging.
- 14) Once a Kar is registered, it CAN NOT be altered or lubricated in any way.
- 15) You may not handle a Kar other than your own before, during or after a race.
